

IN5020 Group 2

How to run

Requirements

- Java Development Kit V.21
- Docker Engine
- Docker Compose V2

Installing and running

If on Windows, run:

```
./runwin.ps1
```

If on Linux, run:

```
./run.sh
```

If on Mac, run (untested due to no macs in group):

```
./runmac.sh
```

Workload distribution

- Eirik
 - Client, query-parsing and tester
 - Processing Server, logic and number crunching
- Oscar
 - Proxy / load balancer
 - Servers registration
 - Clients request to Proxy
- Vetle
 - Dockerization
 - Docker Compose
- Kine
 - Caching
